

Sprint 2 Report

Actions to stop doing:

- These are the activities or actions the team determined they should stop doing. This is the answer to the question, "What things should we stop doing?" The items should take the form of a brief description of what the team wants to stop doing, followed by a brief explanation. If there are no items, this section should describe why the team is completely satisfied with their current process.
 - Avoid using redundant code
 - Stop putting files all into one folder
 - Stop making vague requirements for user stories

Actions to start doing:

- These are the activities or actions the team would like to start doing to improve their development process. This is the answer to the question, "What should we start doing?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.
 - Add to next sprint report during the sprint when we have something we like/don't like doing
 - Better code conventions - commenting, naming of functions/files, using style sheet

Actions to keep doing:

- This is the answer to the question, "What is working well that we should continue to do?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.
 - Communicating about merges to avoid merge conflicts
 - Working as a team after scrum meetings

Work completed/not completed:

- This is a list of the user stories that were completed during the previous sprint, and a list of the user stories not completed during this sprint (but which were part of this sprint, and were in the sprint plan).
 - Completed:
 - As a user I want to add/delete a recipe. (3)
 - As a user I want to edit a recipe. (5)
 - As a user I want to see my saved recipes. (13)
 - As a user I want to add ingredients for the recipe. (1)
 - As a user I want to add the cook time for the recipe. (1) (add input capability for user in recipeModal)

7 November 2023

- As a user I want to add instructions for the recipe. (1)
- Not Completed:
 - As a user I want to add an image for the recipe. (3)
 - As a user I want to generate a grocery list from selected recipes. (10)

Work completion rate:

- This section should report the following: total number of user stories completed during the prior sprint. Total number of estimated ideal work hours completed during the prior sprint. Total number of days during the prior sprint. For the previous sprint, the user stories/day and ideal work hours/day figures should be reported. For sprints past the first sprint, this section should also provide the average user stories/day and average ideal work hours/day figures computed across all sprints to date. The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof.
- Total Number of User Stories Completed: 6 (out of 8)
- Total Number of Working Hours: 60 hours
- User Stories/Day: 0.428
- Work Hours/Day: 4.3 hours
- Ideal Work Hours/Day: 5 hours
