Sprint 1 Report

Actions to stop doing:

These are the activities or actions the team determined they should stop doing. This is the answer to the question, "What things should we stop doing?" The items should take the form of a brief description of what the team wants to stop doing, followed by a brief explanation. If there are no items, this section should describe why the team is completely satisfied with their current process.

- Try to coordinate what files are being changed to avoid merge conflicts
- Try to avoid working on parts of the project that are not associated to user stories in the current sprint

Actions to start doing:

These are the activities or actions the team would like to start doing to improve their development process. This is the answer to the question, "What should we start doing?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.

- Let's be ultra clear on what user stories each person is working on
- Be more realistic with what we can achieve in each sprint (high hopes for sprint 1)
- Keep code clean by breaking everything into more files/components

Actions to keep doing:

This is the answer to the question, "What is working well that we should continue to do?" The items should take the form of a brief description of what the team wants to start doing, followed by a brief explanation.

- Let's keep our in person meetings and collaborative work sessions

Work completed/not completed:

This is a list of the user stories that were completed during the previous sprint, and a list of the user stories not completed during this sprint (but which were part of this sprint, and were in the sprint plan).

Completed:

- As a user I want to create an account.
- As a user I want to login into my account.

Not Completed:

- As a user I want to add/delete a recipe.
- As a user I want to see my saved recipes.

Pantry Pal – The Pallers

24 October 2023

Work completion rate:

This section should report the following: total number of user stories completed during the prior sprint. Total number of estimated ideal work hours completed during the prior sprint. Total number of days during the prior sprint. For the previous sprint, the user stories/day and ideal work hours/day figures should be reported. For sprints past the first sprint, this section should also provide the average user stories/day and average ideal work hours/day figures computed across all sprints to date. The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof.

- Total Number of User Stories Completed: 2
- Total Number of Working Hours: 60 hours
- User Stories/Day: 0.14
- Work Hours/Day: 4.3 hours
- Ideal Work Hours/Day: 5 hours
